

Prerequisites Anaconda Installation

Team ID	PNT2022TMID27859
Project Name	University Admit Eligibility Predictor

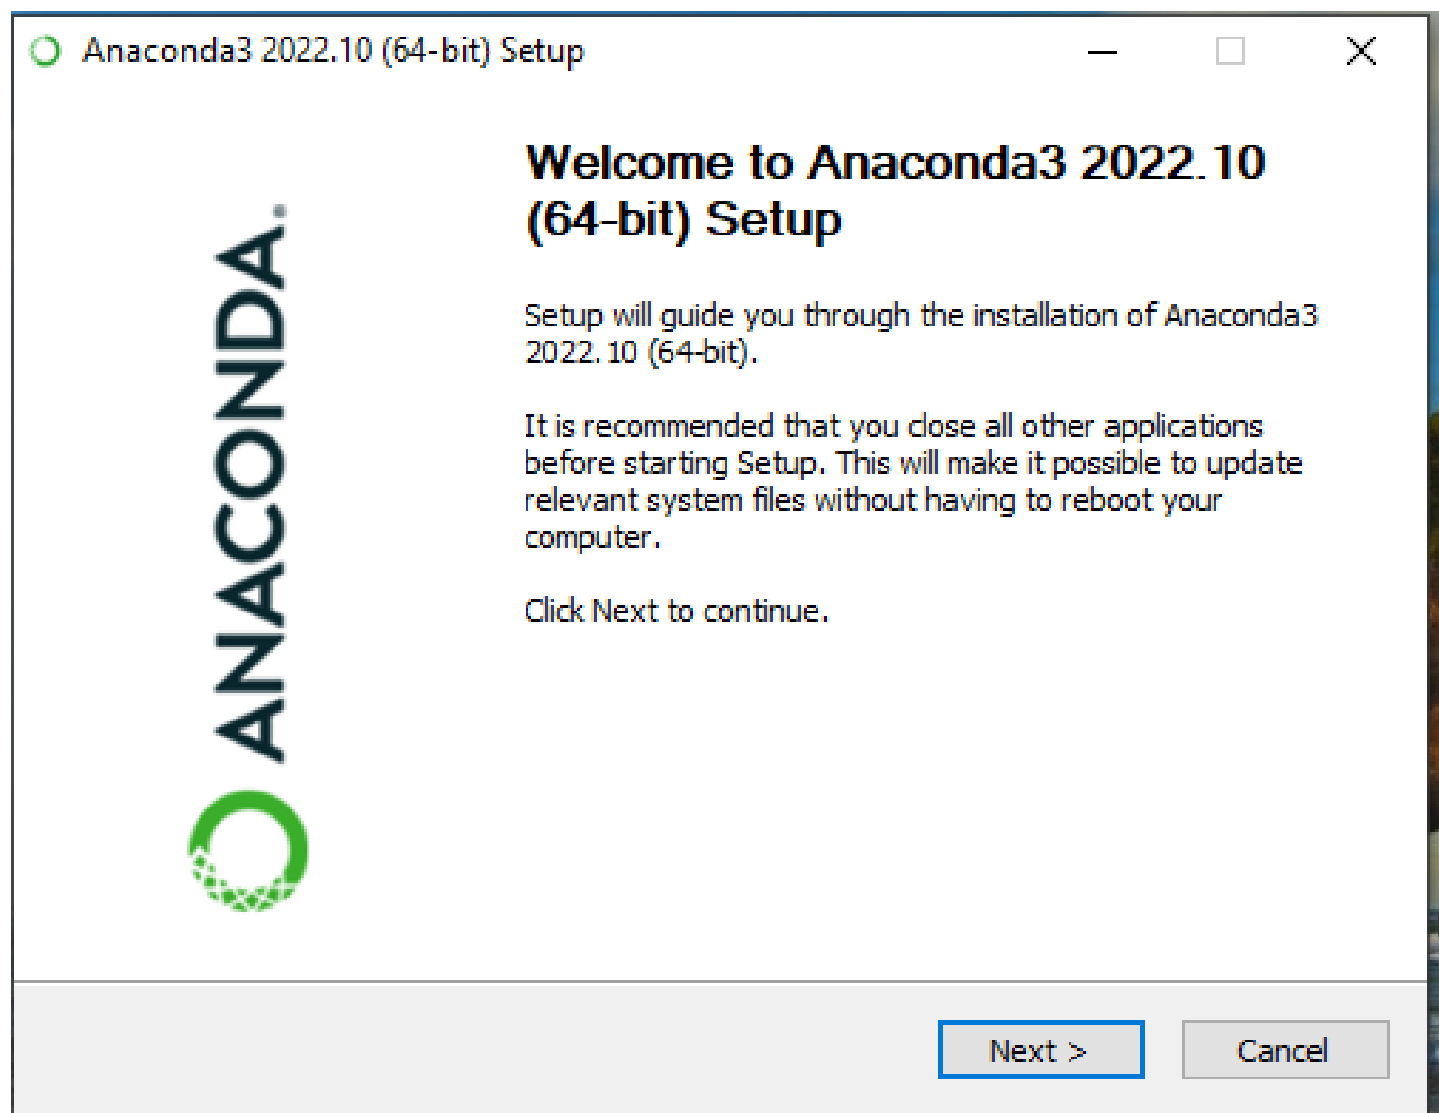

Anaconda is a distribution of Python and R programming languages for scientific computing, that aims to simplify package management and deployment. The distribution includes data-science packages suitable for Windows, Linux, MacOS. It is developed and maintained by Anaconda, which was founded by Peter Wang and Travis Oliphant in 2012 as an Anaconda, it is also known as Anaconda Distribution or Anaconda Individual Edition, while other products from the company are Anaconda Team Edition and Anaconda Enterprise Edition, both of which are not free.
